## HIKE DISCRIPTION FORM

---

HIKE NAME:

Verrado Petroglyphs

Location:

Verrado Community - Buckeye

Hike description:

This is a Easy to moderate hike in the beautiful Verrado Neighborhood. It is a great first hike of the year because it is 4.3 miles with only a 419 elevation gain. The hike takes you to some ancient rock formations and petroglyphs that unfortunately are behind a fence with razor wire. One reviewer on All Trails says: "Its unfortunate that DEAN had to vandalize the petroglyphs there by ruining it for the rest of us. DEAN is the is why we can not have nice things. Way to go DEAN. Despite that it is a beautiful peaceful trail with awesome scenery."
